

Ai Literacy

INSTRUCTOR GUIDE

Instructor Edition - QRU PRESS(TM)

Manufactured from verified Knowledge Record KR-00080 v1. Treasure Standard(TM). Quest for Real Understanding(TM).

Learning Objectives

- Understand ai literacy and explain it in your own words.
- Recognise AI literacy is the knowledge, skills, and judgment people need to understand, ev
- Recognise It matters because AI is increasingly part of education, work, healthcare, media

Vocabulary

Ai Literacy: AI literacy is the knowledge, skills, and judgment people need to understand, evaluate, use, and help make decisions about artificial intelligence systems. It matters because AI is increasingly part of education, work, healthcare, media, and public services, where people need both practical ability and responsible judgment.

Lesson

AI literacy is the knowledge, skills, and judgment people need to understand, evaluate, use, and help make decisions about artificial intelligence systems. It matters because AI is increasingly part of education, work, healthcare, media, and public services, where people need both practical ability and responsible judgment.

Key points:

- AI literacy is the knowledge, skills, and judgment people need to understand, evaluate, use, and help make decisions about artificial intelligence systems.
- It matters because AI is increasingly part of education, work, healthcare, media, and public services, where people need both practical ability and responsible judgment.

Real-World Examples

- A real-world instance of AI Literacy.

Activities & Exercises

1. Explain: Explain AI Literacy in your own words.
2. Explain: Where do you see AI Literacy in real life?

Reflection

- What did you understand about ai literacy that you didn't before?
- Where could you apply this in real life?
- What question do you still have?

Assessment

1. Explain AI Literacy in your own words.
2. Where do you see AI Literacy in real life?

Answer & Facilitation Guidance

Model understanding centres on: AI literacy is the knowledge, skills, and judgment people need to understand, evaluate, use, and help make decisions about artificial intelligence systems. It matters because AI is increasingly part of education, work, healthcare, media, and public services, where people need both practical ability and responsible judgment.

Teacher Notes

- Open by connecting ai literacy to a familiar experience.
- Use the real-world examples to build from concrete to abstract.
- Close with the memory sentence below and a reflection prompt.

Memory sentence: Ai Literacy is best understood by explaining it in your own words.

Memory Sentence

Ai Literacy is best understood by explaining it in your own words.
