QRU Workbook

Day Trading with Faith

Health, Stewardship, and Wise Decision-Making

A QRU TREASURE STANDARD(TM) Educational Workbook

Essential Question:

Can faith make day trading healthier or more successful?

Memory Sentence:

Faith can guide your values, but it cannot predict the market.

This workbook is provided for educational and personal reflection purposes only. No part of this workbook may be copied, sold, distributed, modified, or reproduced without written permission from QRU, except for personal workbook use by the purchaser or authorized learner.

Important Educational Disclaimer

This workbook is for education, personal reflection, and risk-awareness only. It is not financial advice, investment advice, tax advice, legal advice, medical advice, mental-health counseling, addiction treatment, or spiritual counseling.

Day trading is speculative and risky. Many day traders lose money, especially after trading costs, taxes, bid-ask spreads, slippage, leverage, margin interest, and emotional decision-making. Leverage and margin can amplify losses and may create losses greater than the amount originally deposited. Past performance does not predict future results.

Faith, prayer, intuition, optimism, or a sense of spiritual confirmation cannot predict market movement, guarantee protection from losses, or make risky trading financially safe. This workbook does not teach that faith improves trading outcomes. Instead, it explores how faith or deeply held values may support honesty, humility, patience, accountability, self-control, and care for others.

If trading is causing distress, secrecy, relationship conflict, debt, sleep disruption, inability to stop, compulsive checking, chasing losses, or thoughts of self-harm, seek help promptly from a qualified professional. This may include a licensed financial professional, tax professional, attorney, medical doctor, licensed mental-health professional, addiction counselor, or trusted faith/community leader.

If you may harm yourself or someone else, or you feel in immediate danger, contact emergency services in your area now. Depending on your region, this may include calling your local emergency number, going to the nearest emergency department, contacting a crisis hotline, or reaching out to a trusted person who can stay with you until help arrives.

Intended Audience and Reading Level

This workbook is written for a general public audience at approximately a middle-school to high-school reading level. It is suitable for adults and older teens with appropriate guidance.

The tone is intentionally inclusive. Readers may come from different faith traditions, spiritual backgrounds, or no specific denomination. The word faith may refer to religious faith, spiritual convictions, deeply held values, moral commitments, or a personal worldview.

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 1

1. Workbook Purpose

This workbook helps you examine the relationship between faith, day trading, financial risk, emotional health, and wise decision-making.

You will explore how faith or deeply held values may support:

- Humility
- Honesty
- Patience
- Stewardship
- Self-control
- Accountability
- Care for family and community
- Willingness to stop when harm is appearing

You will also learn why faith does not remove financial risk, predict market movement, guarantee trading success, or spiritually validate risky financial behavior.

This workbook is designed to help you think clearly:

- Before trading
- While trading
- After losses
- When trading becomes stressful
- When you may need to stop entirely

The main message is simple:

Faith can guide your values, but it cannot predict the market.

2. Learning Objectives

By the end of this workbook, you should be able to:

1. Identify at least five financial risks connected to day trading.
 2. Explain why day trading is considered speculative and high-risk.
 3. Distinguish faith-based values from market prediction.
 4. Describe why faith, prayer, or spiritual confidence cannot guarantee trading success.
 5. Recognize at least eight warning signs of unhealthy, compulsive, or gambling-like trading behavior.
 6. Complete a personal risk inventory and interpret your risk level.
 7. Create written trading limits, including money, time, sleep, and emotional limits.
 8. Write stop-loss and stop-trading rules that can be followed before emotions take over.
 9. Develop an accountability agreement with a trusted person.
 10. Develop an emergency support plan for financial, emotional, relational, or safety concerns.
 11. Apply the memory sentence to real-life trading scenarios.
 12. Decide when reducing, pausing, or stopping trading entirely may be the wisest choice.
-

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 2

3. Key Vocabulary

| Term | Plain-Language Meaning |

|---|---|

| Day Trading | Buying and selling financial products within the same day, often trying to profit from short-term price changes. |

| Speculation | Taking financial risk in hopes of profit, often with uncertain or unpredictable outcomes. |

| Volatility | How quickly and sharply prices move up or down. |

| Liquidity | How easily something can be bought or sold without greatly changing the price. |

| Bid-Ask Spread | The gap between the price buyers are willing to pay and sellers are willing to accept. This gap can act like a hidden cost. |

| Slippage | When your trade executes at a different price than expected, often during fast-moving markets. |

| Commission/Fee | A cost charged by a broker, platform, exchange, or service. Even "zero

commission" trading may still involve other costs. |

| Margin | Borrowed money from a broker used to trade. Margin can increase gains and losses. |

| Leverage | Using borrowed money or financial tools to control a larger position than your cash alone would allow. |

| Stop-Loss Order | An order designed to sell or close a position if the price reaches a certain level. It may not always execute at the exact expected price. |

| Revenge Trading | Trading impulsively after a loss in an attempt to win money back quickly. |

| Chasing Losses | Continuing to trade because you feel driven to recover previous losses. |

| Overconfidence | Believing you can predict or control outcomes more than you actually can. |

| Compulsive Trading | Trading that feels hard to stop, continues despite harm, or resembles addictive behavior. |

| Stewardship | Carefully managing money, time, health, relationships, and responsibilities. |

| Accountability | Allowing a trustworthy person to help you stay honest and follow wise limits. |

Memory Check

Write the memory sentence three times.

1.

2.

3.

Now complete the sentence:

Faith can guide my , but it cannot predict the .

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 3

4. Part 1: Warm-Up Reflection

Before learning more, pause and answer honestly.

A. Why am I interested in day trading?

Check all that apply.

- ☐ I want extra income.

- ☐ I want financial freedom.
- ☐ I enjoy fast decisions and market movement.
- ☐ I feel pressure because of bills or debt.
- ☐ I saw someone online make money.
- ☐ I feel like I received a sign or confirmation.
- ☐ I want to recover previous losses.
- ☐ I am bored or stressed.
- ☐ I feel hopeful that trading could solve a financial problem.
- ☐ Other:

B. What emotions do I connect with trading?

Check all that apply.

- ☐ Excitement
- ☐ Fear
- ☐ Hope
- ☐ Anxiety
- ☐ Pressure
- ☐ Shame
- ☐ Confidence
- ☐ Desperation
- ☐ Curiosity
- ☐ Regret
- ☐ Other:

C. Reflection Prompt

Answer in a few sentences.

What do I hope day trading will do for my life?

What could day trading harm if I am not careful?

D. Values Reflection

List three values you want to protect no matter what happens in the market.

Examples: honesty, peace, family stability, generosity, health, patience, worship, community, debt freedom, emotional balance.

- 1.
- 2.
- 3.

Now copy the memory sentence:

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 4

5. Part 2: Understanding Day Trading Risk

Day trading is not the same as long-term investing. Day traders often make frequent trades based on short-term price movement. This can involve fast decisions, emotional pressure, and repeated exposure to loss.

Research and investor-protection agencies warn that day trading is risky and that many individual day traders lose money over time. Costs, taxes, market speed, emotional decisions, and competition from professional firms can make consistent profit difficult.

A. Major Financial Risks

1. Market Risk

Prices can move against you quickly. A trade that looks safe can become a loss in seconds or minutes.

2. Leverage and Margin Risk

Borrowed money can increase both gains and losses. With margin, you may lose more than your original deposit, face margin calls, or be forced to sell positions at a bad time.

3. Fees, Spreads, and Slippage

Even when a platform advertises low or no commissions, trading may still involve:

- Bid-ask spreads
- Exchange fees
- Payment for order flow effects
- Slippage
- Data fees
- Platform costs
- Margin interest

Small costs can add up when trading frequently.

4. Tax Complexity

Frequent trading can create complex tax reporting. Gains may be taxable. Losses may not always reduce taxes in the way a trader expects. Rules vary by country, region, and account type.

5. Technology Risk

Internet outages, platform delays, phone problems, order-entry mistakes, and system crashes can turn a planned trade into an unexpected loss.

6. Emotional Risk

Fear, greed, shame, excitement, and frustration can lead to poor decisions. A written plan can help, but a plan only works if you follow it.

B. Reality Statement

Complete the blanks.

Day trading is and risky.

Faith can guide my , but it cannot predict the .

Leverage can make losses .

Taxes and costs can reduce or erase .

C. Personal Understanding Check

In your own words, explain why day trading can be dangerous.

6. Part 3: Faith, Values, and Market Reality

Faith and values can shape how a person handles money, stress, honesty, and responsibility. For many people, faith encourages humility, patience, generosity, and care for others.

However, faith must not be confused with market prediction.

A. What Faith Can Do

Faith or deeply held values may help you:

- Tell the truth about losses
- Avoid secrecy
- Treat money as a responsibility
- Resist greed
- Practice patience
- Ask for help
- Care for family needs first
- Stop when trading causes harm
- Accept that you are not in control of market outcomes

B. What Faith Cannot Do

Faith cannot:

- Predict whether a stock, option, crypto asset, currency, or futures contract will rise or fall
- Guarantee profit
- Remove market risk
- Make leverage safe
- Protect you from poor decisions
- Turn a risky trade into a wise trade
- Prove that a financial impulse is spiritually approved
- Excuse dishonesty, neglect, debt, or harm to others

C. Important Boundary

A feeling of peace, confidence, urgency, or "confirmation" should never replace risk

management, professional guidance, written limits, or honesty with loved ones.

Faith can guide your values, but it cannot predict the market.

D. Reflection: Values vs. Prediction

Read each statement. Mark whether it is a Value Statement or a Prediction Statement.

| Statement | Value or Prediction? |

|---|---|

| "I will be honest with my spouse or accountability partner about my losses." | |

| "I prayed, so this trade will work." | |

| "I will not risk rent or grocery money." | |

| "I feel spiritually confident, so the market will move in my favor." | |

| "I will stop trading if I lose sleep or begin hiding trades." | |

| "This opportunity must be from God because I need money." | |

E. Rewrite Practice

Rewrite the risky statement into a healthier statement.

Risky statement:

"I believe this trade is blessed, so I can increase my position."

Healthier rewrite:

Risky statement:

"I lost money, but I know I'm meant to win it back today."

Healthier rewrite:

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 6

7. Part 4: Health and Behavioral Warning Signs

Trading can become harmful when it begins to resemble gambling-like behavior or compulsive behavior. The issue is not only how much money is lost. The issue is also whether trading

damages health, honesty, relationships, work, sleep, and peace.

A. Warning Signs of Unhealthy Trading

Check any that apply to you now or have applied in the past.

- ☐ I trade longer than I planned.
- ☐ I risk more money than I planned.
- ☐ I hide trades or losses from someone important.
- ☐ I feel restless, anxious, or irritable when I cannot trade.
- ☐ I chase losses.
- ☐ I revenge trade after a bad trade.
- ☐ I increase trade size to feel excitement.
- ☐ I believe I am "due" for a win.
- ☐ I feel unusually powerful, chosen, or certain after a win.
- ☐ I neglect sleep because of trading or market watching.
- ☐ I check markets during meals, worship, family time, work, or school.
- ☐ I borrow money, use credit cards, or use bill money to trade.
- ☐ I lie about how much time or money I spend trading.
- ☐ I feel shame but continue trading.
- ☐ I promise to stop but restart quickly.
- ☐ I feel panicked when positions move against me.
- ☐ I trade to escape sadness, boredom, anger, or stress.
- ☐ I blame others, the market, or spiritual forces instead of reviewing my choices.
- ☐ I have thought, "If I can just win this back, everything will be okay."
- ☐ Trading has harmed my relationships, work, school, health, or spiritual life.

B. Strong Stop Signal

If you checked any of the following, consider pausing trading immediately and seeking support:

- Hiding losses
- Borrowing money to trade
- Chasing losses
- Inability to stop
- Sleep disruption
- Relationship conflict
- Thoughts of self-harm
- Trading with rent, food, medical, tuition, debt-payment, or emergency money

C. When to Stop Trading Entirely

Stopping entirely may be the wisest choice if:

- Trading repeatedly causes emotional distress
- You cannot follow your own limits
- You hide or lie about trading
- You chase losses
- You trade with borrowed money or essential money
- You feel addicted to market checking
- Trading harms your sleep, job, family, health, or faith/community life
- A qualified professional recommends stopping
- A trusted accountability partner says your behavior has become unsafe
- You have thoughts of self-harm related to losses or debt

Stopping is not failure. Stopping can be wisdom, stewardship, courage, and protection.

D. Reflection Prompt

Which warning sign concerns me the most?

What would a wise person who loves me say about my trading?

Write the memory sentence:

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 7

8. Part 5: Personal Risk Inventory

This inventory is not a diagnosis. It is a self-reflection tool. If your score concerns you, consider speaking with a qualified financial professional, mental-health professional, addiction counselor, or trusted support person.

Instructions

For each statement, circle a number.

- 0 = Never
- 1 = Rarely
- 2 = Sometimes
- 3 = Often
- 4 = Very Often

| | Statement | Score |

|---|---|---|

| 1 | I trade when I feel stressed, bored, angry, lonely, or desperate. | 0 1 2 3 4 |

| 2 | I have risked more money than I planned. | 0 1 2 3 4 |

| 3 | I have hidden trades, losses, or account balances. | 0 1 2 3 4 |

| 4 | I chase losses or try to win money back quickly. | 0 1 2 3 4 |

| 5 | I revenge trade after losing. | 0 1 2 3 4 |

| 6 | I lose sleep because of trading or market checking. | 0 1 2 3 4 |

| 7 | I trade with money needed for bills, food, housing, medical care, tuition, debt payments, or emergencies. | 0 1 2 3 4 |

| 8 | I borrow money, use credit, or use margin in ways that worry me. | 0 1 2 3 4 |

| 9 | I feel unable to stop once I begin trading. | 0 1 2 3 4 |

| 10 | Trading has caused conflict with someone close to me. | 0 1 2 3 4 |

| 11 | I believe a feeling, sign, prayer, or spiritual impression can tell me what the market will do. | 0 1 2 3 4 |

| 12 | I increase risk after a win because I feel unusually confident. | 0 1 2 3 4 |

| 13 | I check markets when I should be working, studying, resting, worshiping, parenting, or connecting with others. | 0 1 2 3 4 |

| 14 | I feel shame, panic, or hopelessness about trading losses. | 0 1 2 3 4 |

| 15 | I have promised myself or others I would stop, but I restarted quickly. | 0 1 2 3 4 |

Total Score

Add your scores:

Total: / 60

Risk-Level Guidance

| Score | Risk Level | Suggested Next Step |

|---|---|---|

| 0-10 | Lower current risk | Continue learning. Set written limits before any trading. |

| 11-25 | Moderate concern | Pause and review your habits. Create limits and accountability before trading. |

| 26-40 | High concern | Strongly consider pausing trading and speaking with a qualified professional or trusted support person. |

| 41-60 | Severe concern | Consider stopping trading immediately and seeking professional support, especially if debt, secrecy, sleep loss, or self-harm thoughts are present. |

Reflection

My score tells me:

One action I should take this week is:

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 8

9. Part 6: Trading-Limit Worksheet

A limit is only useful if it is written before emotions rise and followed when it matters.

If you decide not to trade, use this section to create no-trading limits instead.

A. Non-Negotiable Protection List

Money I will never trade with:

- ☐ Rent or mortgage money
- ☐ Grocery money
- ☐ Utility money
- ☐ Medical money
- ☐ Tuition money
- ☐ Debt-payment money
- ☐ Emergency savings
- ☐ Retirement savings
- ☐ Money borrowed from others

- ☐ Credit card funds
- ☐ Family or shared money without full agreement
- ☐ Other:

B. Money Limits

Maximum amount I am willing to place at risk overall:

\$

Maximum amount I am willing to lose in one day:

\$

Maximum amount I am willing to lose in one week:

\$

Maximum amount I am willing to lose in one month:

\$

If I reach any of these limits, I will:

- ☐ Stop trading for the day
- ☐ Stop trading for the week
- ☐ Stop trading for the month
- ☐ Contact my accountability person
- ☐ Review whether I should stop entirely
- ☐ Other:

C. Time Limits

Maximum trading time per day:

Maximum market-checking time per day:

No-market times I will protect:

- Sleep time:
- Work/school time:
- Family time:
- Worship/reflection/rest time:
- Meals:
- Exercise/health care:

D. Emotional Limits

I will not trade when I am:

- ☐ Angry
- ☐ Exhausted
- ☐ Desperate
- ☐ Panicked
- ☐ Ashamed
- ☐ Euphoric after a win
- ☐ Trying to recover losses
- ☐ Feeling spiritually certain about a market outcome
- ☐ Under the influence of alcohol or drugs
- ☐ Hiding my behavior
- ☐ Other:

E. Faith and Values Boundary

Complete the sentence:

My faith or values may help me practice , , and .

But faith can guide my , and it cannot predict the .

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 9

10. Part 7: Stop-Loss and Stop-Trading Rules

A stop-loss rule is about a trade.

A stop-trading rule is about you.

Both matter.

A. Stop-Loss Rule Template

Before entering any trade, I will write:

What am I buying or selling?

Why am I entering this trade?

How much money can I lose on this trade without breaking my plan?

\$

At what price or condition will I exit?

What could go wrong?

Am I using leverage or margin?

- ☐ No
- ☐ Yes - If yes, what is the maximum possible loss?
\$

Have I checked whether this trade fits my written limits?

- ☐ Yes
- ☐ No - If no, I will not enter the trade.

B. Stop-Trading Rules

I will stop trading immediately for the day if:

- ☐ I reach my daily loss limit.
- ☐ I make two impulsive trades.
- ☐ I feel revenge-trading urges.
- ☐ I feel desperate to win money back.
- ☐ I break a written rule.
- ☐ I hide or minimize a loss.
- ☐ I lose emotional control.
- ☐ I begin praying, hoping, or bargaining for a trade to "come back" instead of following my plan.
- ☐ I trade during protected sleep, family, work, worship, or health time.
- ☐ Other:

C. Stop Entirely Rules

I will pause or stop trading entirely and seek support if:

- ☐ I trade with essential money.
- ☐ I borrow money to trade.
- ☐ I hide trading from someone affected by my finances.
- ☐ I cannot follow my limits.
- ☐ Trading causes ongoing anxiety, shame, depression, or sleep loss.
- ☐ Trading damages my family, work, school, health, or spiritual life.
- ☐ My accountability person tells me they are concerned.
- ☐ I have thoughts of self-harm.

- ☐ Other:

D. Written Commitment

I understand that stopping is not weakness. Stopping can be wisdom.

Signature:

Date:

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 10

11. Part 8: Accountability Agreement

Accountability works best when it is specific, honest, and agreed on before a crisis.

Choose someone who is trustworthy, calm, honest, and not financially dependent on your trading success.

Possible accountability people:

- Spouse or partner
- Parent or adult child
- Trusted friend
- Financial counselor
- Mentor
- Faith/community leader
- Support-group sponsor
- Therapist or addiction counselor

A. My Accountability Person

Name:

Phone/Contact:

Relationship:

B. What I Give Them Permission to Ask

- ☐ How much money did you deposit?

- ☐ How much did you lose or gain?
- ☐ Did you follow your written limits?
- ☐ Did you trade with essential money?
- ☐ Did you use margin or borrow money?
- ☐ Did you hide anything?
- ☐ Did trading affect your sleep, work, family, or health?
- ☐ Are you chasing losses?
- ☐ Do you need to pause or stop?
- ☐ Are you safe?

C. What I Agree to Share

I agree to share:

- ☐ Account balances
- ☐ Deposits and withdrawals
- ☐ Realized gains and losses
- ☐ Debt connected to trading
- ☐ Margin use
- ☐ Time spent trading
- ☐ Emotional warning signs
- ☐ Broken rules
- ☐ Other:

D. Contact Schedule

I will check in:

- ☐ Daily
- ☐ Weekly
- ☐ After any loss limit is reached
- ☐ Before increasing position size
- ☐ Before adding money to an account
- ☐ Whenever I feel tempted to chase losses
- ☐ Other:

E. Accountability Agreement

I, , agree that my values matter more than market excitement. I give permission to speak honestly if my trading appears harmful.

I will remember:

Faith can guide your values, but it cannot predict the market.

My Signature:

Accountability Partner Signature:

Date:

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 11

12. Part 9: Emergency Support Plan

Use this plan if trading creates serious financial, emotional, relational, spiritual, or safety concerns.

A. My Early Warning Signs

I may need urgent support when I notice:

- ☐ I am hiding losses.
- ☐ I am lying about money.
- ☐ I am chasing losses.
- ☐ I cannot sleep.
- ☐ I feel panicked or hopeless.
- ☐ I want to borrow money to trade.
- ☐ I want to use rent, food, medical, tuition, or emergency money.
- ☐ I feel unable to stop.
- ☐ I have thoughts of self-harm.
- ☐ Other:

B. My First Three Support Contacts

Contact 1

Name:

Phone/Contact:

Reason I trust this person:

Contact 2

Name:

Phone/Contact:

Reason I trust this person:

Contact 3

Name:

Phone/Contact:

Reason I trust this person:

C. Professional Support Options

If needed, I can contact:

- ☐ Licensed financial professional
- ☐ Tax professional
- ☐ Attorney or legal-aid provider
- ☐ Medical doctor
- ☐ Licensed therapist or counselor
- ☐ Addiction counselor or gambling-harm specialist
- ☐ Debt counselor or nonprofit credit counselor
- ☐ Trusted faith/community leader
- ☐ Employee assistance program, if available
- ☐ Local emergency services
- ☐ Crisis hotline or suicide-prevention line in my region

D. Crisis Safety Statement

If I may harm myself or someone else, or if I feel unable to stay safe, I will seek immediate help. Depending on my location, that may mean:

- Calling my local emergency number
- Going to the nearest emergency department
- Contacting a crisis hotline or text line
- Asking a trusted person to stay with me
- Removing access to trading apps, financial accounts, weapons, or other means of harm while help is contacted

E. Emergency Action Steps

If I reach a crisis point, I will:

1. Stop trading immediately.
2. Move away from trading apps, websites, and devices if possible.
3. Contact:
4. Tell the truth: "I am not okay and I need help staying safe."
5. Contact professional or emergency support if safety is uncertain.
6. Avoid making financial decisions until I am calm and supported.

F. App and Account Safety

To reduce harm, I can:

- ☐ Delete trading apps.
 - ☐ Change passwords with accountability support.
 - ☐ Lower trading permissions.
 - ☐ Disable margin.
 - ☐ Block deposits.
 - ☐ Request account restrictions from the broker, if available.
 - ☐ Freeze credit, if appropriate.
 - ☐ Give a trusted person visibility into accounts.
 - ☐ Set device limits for market websites.
 - ☐ Other:
-

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 12

13. Part 10: Scenario Practice

Read each scenario. Then answer the questions.

Scenario 1: "The Sign"

Jordan has been praying about money stress. After seeing a stock mentioned online, Jordan feels a deep sense of peace and says, "This must be the answer. I'm going to use margin so I don't miss the opportunity."

Questions

1. What risks do you notice?

2. Is Jordan using faith as a value guide or as a market-prediction tool?

3. What should Jordan remember?

Faith can guide your , but it cannot predict the .

4. What is one wise next step?

Scenario 2: "Win It Back"

Maya loses more than planned in the morning. She feels ashamed and thinks, "I cannot tell anyone. I just need one good trade to recover."

Questions

1. What warning signs appear?

2. What stop-trading rule should apply?

3. Who should Maya contact?

4. Should Maya continue trading today? Why or why not?

Scenario 3: "The Hidden Account"

Chris has a shared household budget but opens a separate trading account. Chris tells a partner, "Everything is fine," while using grocery money to trade.

Questions

1. What values are being harmed?

2. What financial risks are present?

3. What support step is needed?

4. Is stopping trading a wise option here?

Scenario 4: "Overconfidence After a Win"

Avery makes a large profit and feels unusually confident. Avery says, "I finally understand the market. I should increase my trade size before this gift passes."

Questions

1. What behavioral risk appears?
2. Why can a win be dangerous?
3. What written limit could protect Avery?
4. Complete the memory sentence:

Faith can guide your , but it cannot predict the .

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 13

14. Part 11: Reflection and Review

A. Three Truths I Need to Remember

Write three truths from this workbook.

- 1.
- 2.
- 3.

B. My Most Important Limit

The most important limit I need to follow is:

C. My Biggest Warning Sign

The warning sign I must take seriously is:

D. My Support Step

The person I will talk to if trading becomes stressful is:

E. Memory Sentence Application

Write the memory sentence:

Now explain what it means in your own words.

QRU TREASURE STANDARD(TM) Workbook | Day Trading with Faith | Page 14

15. Final Assessment

Section A: Short Quiz

Circle the best answer.

1. Day trading is best described as:

- A. A guaranteed way to build wealth
- B. A low-risk activity if you have faith
- C. A speculative activity involving short-term market risk
- D. A spiritual test of confidence

Answer:

2. The memory sentence is:

- A. Faith predicts the market when your motives are good.

- B. Faith can guide your values, but it cannot predict the market.
- C. Faith removes the need for stop-loss rules.
- D. Faith guarantees protection from losses.

Answer:

3. Which is a warning sign of unhealthy trading?

- A. Keeping written limits
- B. Telling the truth about losses
- C. Chasing losses
- D. Taking breaks

Answer:

4. Margin and leverage can:

- A. Increase losses
- B. Eliminate taxes
- C. Guarantee better execution
- D. Prevent slippage

Answer:

5. If trading causes secrecy, debt, sleep disruption, or inability to stop, a wise next step is to:

- A. Trade bigger to recover losses
- B. Hide the losses until they are recovered
- C. Seek support and consider pausing or stopping trading
- D. Trust feelings more strongly

Answer:

6. A bid-ask spread is:

- A. A form of guaranteed profit
- B. The gap between buying and selling quotes
- C. A tax deduction
- D. A spiritual confirmation

Answer:

7. Which statement is healthiest?

- A. "I prayed, so this trade will work."
- B. "I feel peace, so I can ignore my limits."
- C. "My values require honesty, limits, and accountability."
- D. "Losses mean I should keep trading until I win."

Answer:

8. Revenge trading means:

- A. Taking a planned break
- B. Trading impulsively after a loss to win money back
- C. Asking for help
- D. Reviewing your trading journal calmly

Answer:

Section B: Scenario-Based Questions

Scenario A

Sam has lost money three days in a row. Sam says, "I know the market owes me a win. I'll use borrowed money just this once."

1. Identify two warning signs.
 2. What should Sam do next?
 3. Which memory sentence applies?
-

Scenario B

Riley wants to trade but has written limits, no debt, no margin, protected sleep, and an accountability partner. Riley also says, "My faith helps me stay honest, but it does not tell me where prices will go."

1. What is Riley doing well?
 2. Does this guarantee Riley will make money?
 3. What should Riley still remember about risk?
-

Scenario C

Taylor is losing sleep, hiding account balances, and checking markets during family time. Taylor feels ashamed but cannot stop.

1. What level of concern does this suggest?
2. What support options could Taylor use?
3. Should Taylor consider stopping trading entirely? Why?

16. Answer Guidance

Use this section to check your work. Answers may vary, but they should show clear understanding.

Short Quiz Answer Key

1. C - Day trading is speculative and risky.
2. B - Faith can guide your values, but it cannot predict the market.
3. C - Chasing losses is a warning sign.
4. A - Margin and leverage can increase losses.
5. C - Seek support and consider pausing or stopping.
6. B - The bid-ask spread is the gap between buying and selling quotes.
7. C - Healthy trading behavior includes honesty, limits, and accountability.
8. B - Revenge trading is impulsive trading after a loss.

Scenario A Guidance

Warning signs include:

- Chasing losses
- Believing the market "owes" a win
- Borrowing money to trade

- Desperation
- Overconfidence
- Breaking limits

Wise next steps include:

- Stop trading immediately
- Do not borrow money
- Contact an accountability person
- Review stop-trading rules
- Seek financial or mental-health support if needed

Memory sentence:

Faith can guide your values, but it cannot predict the market.

Scenario B Guidance

Riley is doing well by:

- Having written limits
- Avoiding debt and margin
- Protecting sleep
- Using accountability
- Separating faith values from market prediction

This does not guarantee profit. Riley can still lose money because markets are uncertain.

Scenario C Guidance

This suggests high or severe concern because of secrecy, sleep disruption, compulsive checking, shame, and inability to stop.

Support options include:

- Accountability person
- Licensed mental-health professional
- Addiction counselor or gambling-harm specialist
- Financial counselor
- Medical doctor if sleep, anxiety, or depression are serious
- Trusted faith/community leader
- Emergency or crisis support if safety is at risk

Taylor should strongly consider stopping trading entirely, at least until supported and stable.

17. Personal Action-Plan Rubric

Use this rubric to evaluate your plan. Circle one score for each category.

| Category | 1 = Needs Work | 2 = Developing | 3 = Strong |

|---|---|---|---|

| Risk Awareness | I cannot clearly name my risks. | I can name some risks. | I can name financial, emotional, relational, and spiritual/value risks. |

| Faith and Market Boundary | I may use faith to predict trades. | I understand the boundary but need reminders. | I clearly know faith can guide values, not market outcomes. |

| Money Limits | I have no written money limits. | I have some limits but they are vague. | I have clear daily, weekly, monthly, and non-negotiable limits. |

| Time and Sleep Limits | I have no time/sleep limits. | I have general intentions. | I have written protected times and sleep rules. |

| Stop-Trading Rules | I do not know when to stop. | I have some stop rules. | I have clear rules for stopping for the day, week, month, or entirely. |

| Accountability | No one knows my plan. | Someone knows part of my plan. | A trusted person has agreed to ask direct questions. |

| Emergency Plan | I do not know who to contact. | I have one support option. | I have contacts, professional options, and crisis steps. |

| Honesty and Transparency | I hide or minimize trading. | I am trying to become more honest. | I agree to full honesty with affected people and support contacts. |

Total Score

Add your scores:

Total: / 24

Rubric Guidance

| Score | Meaning | Next Step |

|---|---|---|

| 8-12 | Your plan needs significant strengthening. | Do not trade until your plan is clearer and support is in place. |

| 13-18 | Your plan is developing. | Improve weak areas before trading. |

| 19-24 | Your plan is stronger. | Continue using accountability and review regularly. Remember:

even a strong plan does not guarantee profit. |

18. Personal Action Plan

Complete this page carefully.

A. My Decision Right Now

At this time, I choose to:

- ☐ Not day trade.
- ☐ Pause day trading for now.
- ☐ Stop day trading entirely.
- ☐ Continue only with strict written limits and accountability.
- ☐ Seek professional support before making a trading decision.

B. My Top Three Rules

- 1.
- 2.
- 3.

C. My Stop Rule

If ,

then I will stop trading and .

D. My Accountability Step

By this date:

I will contact:

I will say:

E. My Professional Consultation Step

If appropriate, I will consult:

- ☐ Financial professional
- ☐ Tax professional
- ☐ Legal professional
- ☐ Medical professional
- ☐ Mental-health professional
- ☐ Addiction counselor
- ☐ Faith/community leader
- ☐ Other:

F. My Values Statement

The values I choose to protect are:

- 1.
- 2.
- 3.

My values matter more than:

G. Final Memory Sentence

Write it one more time:

19. Completion Checklist

Check each item when completed.

- ☐ I completed the warm-up reflection.
- ☐ I reviewed the financial risks of day trading.
- ☐ I understand that many day traders lose money.

- ☐ I understand leverage and margin can increase losses.
- ☐ I understand taxes, spreads, fees, and slippage can reduce results.
- ☐ I understand faith cannot predict markets or guarantee profit.
- ☐ I completed the health and behavioral warning signs checklist.
- ☐ I completed the personal risk inventory.
- ☐ I created or reviewed trading limits.
- ☐ I wrote stop-loss and stop-trading rules.
- ☐ I identified when stopping entirely may be wise.
- ☐ I completed the accountability agreement or identified an accountability person.
- ☐ I completed the emergency support plan.
- ☐ I practiced the scenarios.
- ☐ I completed the final assessment.
- ☐ I reviewed the answer guidance.
- ☐ I completed the personal action-plan rubric.
- ☐ I wrote the memory sentence and can explain it.

20. Closing Answer to the Essential Question

Essential Question

Can faith make day trading healthier or more successful?

Closing Answer

Faith or deeply held values can help a person make healthier decisions by encouraging honesty, humility, patience, stewardship, self-control, and accountability. Faith may help someone pause, tell the truth, protect family needs, avoid greed, seek support, and stop when trading becomes harmful.

But faith cannot make day trading financially safe. Faith cannot predict the market, guarantee profit, prevent losses, remove tax responsibilities, eliminate slippage, protect against leverage, or spiritually validate risky financial behavior.

The wisest answer is:

Faith can guide your values, but it cannot predict the market.

A healthy approach to day trading must include realistic risk awareness, written limits, emotional honesty, professional consultation when needed, and willingness to stop entirely if trading causes harm.

21. References and Further Reading

The following sources support the risk-awareness and behavioral-health themes in this workbook. They are provided for educational context and are not endorsements of any trading strategy.

1. Barber, B. M., Lee, Y.-T., Liu, Y.-J., & Odean, T.

"The Cross-Section of Speculator Skill: Evidence from Day Trading." *Journal of Financial Markets*, 2014.

This research found that the majority of individual day traders in the studied market lost money, and only a small percentage were consistently profitable.

2. Barber, B. M., Lee, Y.-T., Liu, Y.-J., & Odean, T.

"Just How Much Do Individual Investors Lose by Trading?" *Review of Financial Studies*, 2009.

This study examined individual trading performance and trading costs.

3. U.S. Securities and Exchange Commission.

"Day Trading: Your Dollars at Risk." Investor guidance.

Discusses risks of day trading, including losses, borrowing, and aggressive trading claims.

4. Financial Industry Regulatory Authority.

FINRA Investor Insights and Margin Guidance.

FINRA provides investor education on margin accounts, pattern day trading rules, and how margin can increase both gains and losses.

5. U.S. Securities and Exchange Commission.

Investor Bulletins on Margin, Order Execution, and Trading Costs.

SEC materials explain risks related to margin, order execution, bid-ask spreads, market orders, and fast-moving markets.

6. Internal Revenue Service.

Publication 550: Investment Income and Expenses.

Provides U.S.-specific information on taxation of investment income, capital gains, losses, and reporting. Tax rules vary by country and individual situation.

7. Organisation for Economic Co-operation and Development.

Financial Consumer Protection and Financial Literacy Resources.

Offers international context on consumer financial risk and the importance of financial literacy.

8. American Psychiatric Association.

Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition, Text Revision - Gambling Disorder.

Provides clinical criteria related to gambling disorder. This workbook does not diagnose, but some compulsive trading patterns may resemble gambling-related harm.

9. National Council on Problem Gambling.

Problem Gambling Warning Signs and Help Resources.

Describes warning signs such as chasing losses, secrecy, borrowing, and inability to stop.

10. World Health Organization.

Mental Health and Addictive Behaviors Resources.

Offers general public-health information about mental health, crisis support, and behavioral addictions.

Final Professional Note

Before making financial decisions, consider consulting qualified professionals who understand your full situation. Depending on your needs, this may include a licensed financial professional, tax professional, attorney, medical doctor, licensed mental-health professional, addiction counselor, debt counselor, or trusted faith/community leader.

This workbook teaches awareness, reflection, and safety planning. It does not tell you what to buy, sell, trade, or believe.
